Dwellings

3 MOORE PLACE, STEVENSTON, KA20 3HW

**Dwelling type:** Mid-terrace house  
**Date of assessment:** 09 January 2026  
**Date of certificate:** 09 January 2026  
**Total floor area:** 112 m<sup>2</sup>  
**Primary Energy Indicator:** 102 kWh/m<sup>2</sup>/year

**Reference number:** 0117-1022-6209-2466-2204  
**Type of assessment:** RdSAP, existing dwelling  
**Approved Organisation:** ECMK  
**Main heating and fuel:** Boiler and radiators, mains gas

## You can use this document to:

- Compare current ratings of properties to see which are more energy efficient and environmentally friendly
- Find out how to save energy and money and also reduce CO<sub>2</sub> emissions by improving your home

Estimated energy costs for your home for 3 years*	£2,538	See your recommendations report for more information
Over 3 years you could save*	£	

\* based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

Very energy efficient - lower running costs

Not energy efficient - higher running costs

Current	Potential
82	86

## Energy Efficiency Rating

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is **band B (82)**. The average rating for EPCs in Scotland is **band D (61)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Very environmentally friendly - lower CO<sub>2</sub> emissions

Not environmentally friendly - higher CO<sub>2</sub> emissions

Current	Potential
84	85

## Environmental Impact (CO<sub>2</sub>) Rating

This graph shows the effect of your home on the environment in terms of carbon dioxide (CO<sub>2</sub>) emissions. The higher the rating, the less impact it has on the environment.

Your current rating is **band B (84)**

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

## Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years
1 Solar photovoltaic (PV) panels	£8,000 - £10,000	£681.00

A full list of recommended improvement measures for your home, together with more information on potential cost and savings and advice to help you carry out improvements can be found in your recommendations report.

To find out more about the recommended measures and other actions you could take today to stop wasting energy and money, visit [greenerScotland.org](http://greenerScotland.org) or contact Home Energy Scotland on 0808 808 2282.

**THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED CERTIFICATE**

## Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction. See the addendum section on the last page of this report for further information relating to items in the table.

Element	Description	Energy Efficiency	Environmental
Walls	Timber frame, as built, insulated (assumed)	★★★★☆	★★★★☆
Roof	Pitched, insulated (assumed) Roof room(s), insulated (assumed)	★★★★★ ★★★★☆	★★★★★ ★★★★☆
Floor	Solid, insulated (assumed)	—	—
Windows	Fully double glazed	★★★☆☆	★★★☆☆
Main heating	Boiler and radiators, mains gas	★★★★☆	★★★★☆
Main heating controls	Programmer, room thermostat and TRVs	★★★★☆	★★★★☆
Secondary heating	None	—	—
Hot water	From main system	★★★★☆	★★★★☆
Lighting	Excellent lighting efficiency	★★★★★	★★★★★

## The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO<sub>2</sub> emissions, running costs and the savings possible from making improvements.

## The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

The calculated emissions for your home are 18 kg CO<sub>2</sub>/m<sup>2</sup>/yr.

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 2.1 tonnes of carbon dioxide every year. You could reduce emissions by switching to renewable energy sources.

## Estimated energy costs for this home

	Current energy costs	Potential energy costs	Potential future savings
Heating	£1,773 over 3 years	£1,773 over 3 years	
Hot water	£546 over 3 years	£546 over 3 years	
Lighting	£219 over 3 years	£219 over 3 years	
<b>Totals</b>	<b>£2,538</b>	<b>£2,538</b>	

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

## Recommendations for improvement

The measures below will improve the energy and environmental performance of this dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions to take today to save money is available from the Home Energy Scotland hotline which can be contacted on 0808 808 2282. Before carrying out work, make sure that the appropriate permissions are obtained, where necessary. This may include permission from a landlord (if you are a tenant) or the need to get a Building Warrant for certain types of work.

Recommended measures	Indicative cost	Typical saving per year	Rating after improvement	
			Energy	Environment
1 Solar photovoltaic panels, 2.5 kWp	£8,000 - £10,000	£227		

## Choosing the right improvement package

For free and impartial advice on choosing suitable measures for your property, contact the Home Energy Scotland hotline on 0808 808 2282 or go to [www.greenerscotland.org](http://www.greenerscotland.org).

## About the recommended measures to improve your home's performance rating

This section offers additional information and advice on the recommended improvement measures for your home

### 1 Solar photovoltaic (PV) panels

A solar PV system is one which converts light directly into electricity via panels placed on the roof with no waste and no emissions. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check with your local authority. The assessment does not include the effect of any Feed-in Tariff which could appreciably increase the savings that are shown on this EPC for solar photovoltaic panels, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at [www.microgenerationcertification.org](http://www.microgenerationcertification.org).

## Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

**LZC energy sources present:** There are none provided for this home

## Your home's heat demand

In this section, you can see how much energy you might need to heat your home and provide hot water. These are estimates showing how an average household uses energy. These estimates may not reflect your actual energy use, which could be higher or lower. You might spend more money on heating and hot water if your house is less energy efficient. The table below shows the potential benefit of having your loft and walls insulated. Visit <https://energysavingtrust.org.uk/energy-at-home> for more information.

Heat demand	Existing dwelling	Impact of loft insulation	Impact of cavity wall insulation	Impact of solid wall insulation
Space heating (kWh per year)	5,975.22	N/A	N/A	N/A
Water heating (kWh per year)	2,449.45			

## Addendum

When considering the PV installation consider installing PV battery and a PV diverter for water heating

## About this document

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by ECMK ([www.ecmk.co.uk](http://www.ecmk.co.uk)), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting [www.scottishepcregister.org.uk](http://www.scottishepcregister.org.uk) and entering the report reference number (RRN) printed at the top of this page.

Assessor's name:	Paul Robert Fraser
Assessor membership number:	ECMK304632
Company name/trading name:	Walker Fraser Steele
Address:	27 Waterloo Street Glasgow G2 6BZ
Phone number:	01412210442
Email address:	<a href="mailto:paul.fraser@esurv.co.uk">paul.fraser@esurv.co.uk</a>
Related party disclosure:	No related party

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

## Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at [www.scottishepcregister.org.uk](http://www.scottishepcregister.org.uk), with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at [www.gov.scot/epc](http://www.gov.scot/epc).

### **Advice and support to improve this property**

There is support available, which could help you carry out some of the improvements recommended for this property on page 3 and stop wasting energy and money. For more information, visit [greenerscotland.org](https://www.greenerscotland.org) or contact Home Energy Scotland on 0808 808 2282.

Home Energy Scotland's independent and expert advisors can offer free and impartial advice on all aspects of energy efficiency, renewable energy and more.

## TERMS AND CONDITIONS

### PART 1 - GENERAL

#### 1.1

#### THE SURVEYORS

The Seller has engaged the Surveyors to provide the Single Survey Report and a generic Mortgage Valuation Report for Lending Purposes. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

The Surveyors are authorised to provide a transcript or retype of the generic Mortgage Valuation Report on to Lender specific pro-forma. Transcript reports are commonly requested by Brokers and Lenders. The transcript report will be in the format required by the Lender but will contain the same information, inspection date and valuation figure as the generic Mortgage Valuation Report and the Single Survey. The Surveyors will decline any transcript request which requires the provision of information additional to the information in the Report and the generic Mortgage Valuation Report until the Seller has conditionally accepted an offer to purchase made in writing.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report and generic Mortgage Valuation Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report and generic Mortgage Valuation Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who will have sufficient current local knowledge of the particular market to competently survey, value and report upon Residential Property.<sup>1</sup>

If the Surveyors have had a previous business relationship within the past two years with the Seller or Sellers Agent or relative to the property, they will be obliged to indicate this by checking the adjacent box.

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

#### 1.2

#### THE REPORT

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

Prior to 1 December 2008, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

## 1.3

### LIABILITY

The Report is prepared with the skill and care reasonably to be expected of a competent residential Surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to:

- the Seller;
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- the Purchaser; and
- the professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

## 1.4

### GENERIC MORTGAGE VALUATION REPORT

The Surveyors undertake to the Seller that they will prepare a generic Mortgage Valuation Report, which will be issued along with the Single Survey. It is the responsibility of the Seller to ensure that the generic Mortgage Valuation Report is provided to every potential Purchaser.

## 1.5

### TRANSCRIPT MORTGAGE VALUATION FOR LENDING PURPOSES

The Surveyors undertake that on being asked to do so by a prospective purchaser, or his/her professional advisor or Lender, they will prepare a Transcript Mortgage Valuation Report for Lending Purposes on terms and conditions to be agreed between the Surveyors and Lender and solely for the use of the Lender and upon which the Lender may rely. The decision as to whether finance will be provided is entirely a matter for the Lender. The Transcript Mortgage Valuation Report will be prepared from information contained in the Report and the generic Mortgage Valuation Report.<sup>2</sup>

## 1.6

### INTELLECTUAL PROPERTY

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

## 1.7

### PAYMENT

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports.

## 1.8

### CANCELLATION

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as

detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

## 1.9

### PRECEDENCE

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

## 1.10

### DEFINITIONS

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Transcript Mortgage Valuation Report for Lending Purposes" means a separate report, prepared by the Surveyor, prepared from information in the Report and the generic Mortgage Valuation Report, but in a style and format required by the Lender. The Transcript Mortgage Valuation Report for Lending Purposes will be prepared with the skill and care reasonably to be expected from a surveyor who is a member of the Royal Institution of Chartered Surveyors and who is competent to survey, value and report on the Property;
- the "Generic Mortgage Valuation Report" means a separate report, prepared by the Surveyor from information in the Report but in the Surveyor's own format.
- the "Market Value" is the estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion
- the "Property" is the property which forms the subject of the Report;
- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller;
- "prospective Purchaser" is anyone considering buying the Property.
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property; and
- the "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member or partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

<sup>1</sup>Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Codes of Conduct

<sup>2</sup>Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Rules of Conduct.

## PART 2 – DESCRIPTION OF THE REPORT

### 2.1 THE SERVICE

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company. In addition, the Surveyor has agreed to supply a generic Mortgage Valuation Report.

### 2.2 THE INSPECTION

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

### 2.3 THE REPORT

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyor's opinion, are not significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

- 2.3.1 Category 3: Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.
- 2.3.2 Category 2: Repairs or replacement requiring future attention, but estimates are still advised.
- 2.3.3 Category 1: No immediate action or repair is needed.

**WARNING:** If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable.

Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

### 2.4 SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is

made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

## 2.5

### **ACCESSIBILITY**

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

## 2.6

### **ENERGY REPORT**

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

## 2.7

### **VALUATION AND CONVEYANCER ISSUES**

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

"Market Value" The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

- There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use communal grounds, parking areas, and other facilities;
- There are no particularly troublesome or unusual legal restrictions;
- There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

"Re-instatement cost" is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees).

Sellers or prospective Purchasers may consider it prudent to instruct a reinspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property.

## 1. INFORMATION AND SCOPE OF INSPECTION

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the Surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without moving any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right in a description of the exterior of the property refer to the view of someone standing facing that part of the property from the outside.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the Surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the Surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities will not be inspected or reported on.

<b>Description</b>	The property is a purpose built mid terraced house with gardens to the front and rear along with 2 allocated car parking spaces in the courtyard.
<b>Accommodation</b>	3 Floor(s), 1 Reception room(s), 3 Bedroom(s), 1 Kitchen(s), 1 Bathroom(s) with WC, 1 Separate WC(s).
<b>Gross internal floor area (sqm)</b>	112
<b>Neighbourhood and location</b>	The property is in a predominantly residential area close to the town center and general amenities. The road know as Moore Place is believed to be adopted by the Local Authority.
<b>Age</b>	2003
<b>Weather</b>	At the time of the inspection, it was dry.
<b>Chimney stacks</b>	None

<b>Roofing including roof space</b>	<p>Sloping roofs were visually inspected with the aid of binoculars where required.</p> <p>Roofs are prone to water penetration in extreme storms but it is not always possible for surveyors to identify this likelihood in good or dry weather. All roofs should be inspected and repaired by reputable tradesmen on an annual basis and especially after storms.</p> <p>The roof is pitched and covered with concrete tiles. There was no attic space to inspect. We assume the roof structure is of a traditional timber truss design with sarking boards, sub-tiling felt and insulation laid between the ceiling joists.</p>
<b>Rainwater fittings</b>	<p>Visually inspected with the aid of binoculars where required.</p> <p>Rainwater fittings are formed in plastic.</p>
<b>Main walls</b>	<p>Visually inspected with the aid of binoculars where required.</p> <p>Foundations and concealed parts were not exposed or inspected.</p> <p>The main walls measure approximately 370mm thick and are assumed to be of timber frame construction, render or reconstituted stone finished externally, plaster board lined internally.</p>
<b>Windows, external doors and joinery</b>	<p>Internal and external doors were opened and closed where keys were available.</p> <p>Random windows were opened and closed where possible. Doors and windows were not forced open.</p> <p>The windows and doors are of a upvc double glazed design.</p>
<b>External decorations</b>	<p>Visually inspected</p> <p>Facia/soffit boards have been pvc lined.</p>
<b>Conservatories / porches</b>	None
<b>Communal areas</b>	The courtyard area is assumed communal amongst the block residents. Full details should be established.
<b>Garages and permanent outbuildings</b>	None

<b>Outside areas and boundaries</b>	<p><b>Visually inspected</b></p> <p>The property has tended garden areas to the front and rear, laid out predominantly to grass, gravel and paving. Boundaries include timber or metal fencing and brickwork walling.</p> <p>A timber garden shed is located within the rear gardens.</p>
<b>Ceilings</b>	<p><b>Visually inspected from floor level</b></p> <p>Ceilings are of plasterboard with decorative finish.</p>
<b>Internal walls</b>	<p><b>Visually inspected from floor level. Using a moisture meter, walls were randomly tested for dampness where considered appropriate.</b></p> <p>Internal walls have been plasterboard lined and decoratively finished.</p>
<b>Floors including sub floors</b>	<p><b>Surface of exposed floors were visually inspected. No carpets or floor covering were lifted</b></p> <p>The floors are of solid construction and suspended timber construction, carrying a decorative over-lay.</p> <p>There are no sub floor areas to inspect.</p>
<b>Internal joinery and kitchen fittings</b>	<p>The kitchen fittings comprise a range of wall and base units, including sink, fridge freezer, gas hob and electrical oven.</p> <p>Internal doors are of a modern, molded timber panel design.</p> <p>Internal joinery comprises both mdf and treated softwood.</p>
<b>Chimney breasts and fireplaces</b>	None
<b>Internal decorations</b>	<p><b>Visually inspected</b></p> <p>The walls and ceilings have a mixture of painted, papered, tiled or laminated finishes.</p>
<b>Cellars</b>	None

Electricity	<p>Accessible parts of the wiring were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the Surveyor will state that in the report and will not turn them on.</p> <p>Mains electricity is connected with the meter and consumer unit understood to be located in hall cupboard.</p>
Gas	<p>Accessible parts of the system were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the Surveyor will state that in the report and will not turn them on.</p> <p>Mains gas supply is connected with a meter located externally at ground level abutting the front elevation cloakroom wall lining (within the pvc boxing).</p>
Water, plumbing and bathroom fittings	<p>Visual inspection of the accessible pipework, water tanks, cylinders and fittings without removing any insulation.</p> <p>No tests whatsoever were carried out to the system or appliances.</p> <p>Mains water supply is connected.</p> <p>Plumbing where visible is copper and plastic.</p> <p>The bathroom is fitted with modern bath - with shower fitment over, wc and wash hand basin.</p> <p>The ground floor cloakroom comprises wc and wash hand basin.</p>
Heating and hot water	<p>Accessible parts of the system were visually inspected apart from communal systems, which were not inspected.</p> <p>No tests whatsoever were carried out to the system or appliances.</p> <p>Central heating is provided by a wall mounted gas fired boiler in the ground floor cloakroom cupboard, supplying radiators throughout the main accommodation.</p>
Drainage	<p>Drainage covers etc were not lifted. Neither drains nor drainage system were tested.</p> <p>Drainage is assumed to connect into the public sewer.</p>

<b>Fire, smoke and burglar alarms</b>	<p><b>Visually inspected.</b></p> <p><b>No tests whatsoever were carried out to the system or appliances.</b></p> <p>There are smoke alarms located in dwelling.</p>
<b>Any additional limits to inspection</b>	<p>At the time of inspection the property was occupied and floors were covered.</p> <p>When visually inspected the property insulation was not disturbed, furniture and personal effects (particularly in cupboards) and floor coverings have not been moved.</p> <p>There was no access to the roof space.</p> <p>We were unable to fully inspect some areas of the property given the presence of stored items. Areas include the ground floor hall cupboard, rear vestibule, the front left gable wall of the attic bedroom and wall linings within the front left hand bedroom.</p>

## Sectional Diagram showing elements of a typical house

Reference may be made in this report to some or all of the above component parts of the property. This diagram may assist you in locating and understanding these items.

## 2. CONDITION

This section identifies problems and tells you about the urgency of any repairs by using one of the following 3 categories:

Category 1 <span>1</span>	Category 2 <span>2</span>	Category 3 <span>3</span>
No immediate action or repair is needed.	Repairs or replacement requiring future attention, but estimates are still advised.	Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.

Structural movement	
Repair category:	
Notes	Not Applicable

Dampness, rot and infestation	
Repair category:	<span>1</span>
Notes	<p>There is no evidence indicating any significant dampness, rot or infestation within the limitations and scope of the inspection and report.</p> <p>Previous/historic moisture staining (minor damage) is noted to the wall/ceiling beneath the front and rear elevation skylights. Cosmetic repair may be required.</p>

Chimney stacks	
Repair category:	
Notes	Not Applicable

Roofing including roof space	
Repair category:	<span>1</span>
Notes	<p>There is no evidence of significant defects from ground level affecting the pitched roofing within the limitations and scope of the inspection and report. Typical weathering is apparent.</p>

## Rainwater fittings

Repair category:	1
Notes	<p>We would highlight that it was not raining at the time of our inspection and we would recommend that all rainwater fittings be inspected during heavy rainfall in order to ensure they are free from defect.</p> <p>Although it was dry at the time of inspection, the condition of the rainwater goods appears to be generally satisfactory.</p>

## Main walls

Repair category:	1
Notes	<p>There are no obvious or significant defects affecting the main walls, save for typical weathering.</p>

## Windows, external doors and joinery

Repair category:	2
Notes	<p>There are no obvious or significant defects affecting the external windows/doors/joinery.</p> <p>Window frames/seals and doors are noted to be affected by general weathering.</p>

## External decorations

Repair category:	1
Notes	<p>There are no obvious or significant defects affecting external decorations out-with typical weathering and minor cracking.</p>

## Conservatories / porches

Repair category:	
Notes	<p>Not Applicable</p>

## Communal areas

Repair category:	1
Notes	<p>No obvious or significant defects are affecting the communal areas.</p>

## Garages and permanent outbuildings

Repair category:	
Notes	Not Applicable

## Outside areas and boundaries

Repair category:	1
Notes	<p>Outside areas have been maintained to an acceptable standard.</p> <p>Boundary walls and fences should be regularly checked and maintained as necessary.</p>

## Ceilings

Repair category:	1
Notes	<p>There are no obvious or significant defects affecting ceilings.</p> <p>Minor irregularities and undulations are present but these are not unusual for this type and age of property. Cosmetic works will be required when redecorating.</p> <p>There are a number of minor cracks to the plasterboard but these are not of structural significance.</p>

## Internal walls

Repair category:	1
Notes	<p>There are no obvious or significant defects affecting the internal walls.</p> <p>Minor impact damage/wear and tear is evident to internal walls.</p> <p>Some irregularities and undulations are present in the plasterwork and these are not considered to be serious in a property of this age and type.</p> <p>Some shrinkage cracks are present in the plasterwork and although these are not considered to be serious in a property of this age.</p>

## Floors including sub floors

Repair category:	1
Notes	<p>Save fair wear and tear, no reportable defects noted.</p> <p>Sections of the flooring/stair are slightly springy when tread upon. Minor maintenance may be anticipated.</p>

## Internal joinery and kitchen fittings

<b>Repair category:</b>	1
<b>Notes</b>	Save fair wear and tear, no reportable defects noted.  A leaking kitchen tap was however apparent.

## Chimney breast and fire places

<b>Repair category:</b>	
<b>Notes</b>	Not Applicable

## Internal decorations

<b>Repair category:</b>	1
<b>Notes</b>	Internal decoration is generally acceptable although some wear and tear is evident in places.

## Cellars

<b>Repair category:</b>	
<b>Notes</b>	Not Applicable

## Electricity

<b>Repair category:</b>	1
<b>Notes</b>	It is recommended that all electrical installations be checked every five years or on change of ownership to keep up to date with frequent changes in Safety Regulations. Further advice will be available from a qualified NICEIC / SELECT registered Contractor. It should be appreciated that only recently constructed or rewired properties will have installations which fully comply with IEE regulations.

## Gas

<b>Repair category:</b>	1
<b>Notes</b>	Trade bodies governing gas installations currently advise that gas appliances should be tested prior to change in occupancy and thereafter at least once a year by a Gas Safe registered contractor. It is assumed that gas appliances comply with relevant regulations.

## Water, plumbing and bathroom fittings

<b>Repair category:</b>	1
<b>Notes</b>	There are no obvious reportable defects affecting sanitary ware out with normal wear and tear.

## Heating and hot water

<b>Repair category:</b>	1
<b>Notes</b>	<p>It is assumed that the central heating system has been properly installed, updated and maintained to meet with all current regulations and standards with particular regard to fluing and ventilation requirements.</p> <p>Boilers and central heating systems should be tested and serviced by a Gas Safe registered engineer on an annual basis to ensure their safe and efficient operation.</p> <p>It is assumed that the heating and hot water systems have been properly serviced and maintained on a regular basis and installed in accordance with the relevant regulations.</p>

## Drainage

<b>Repair category:</b>	1
<b>Notes</b>	There are no obvious defects affecting the foul or surface water drainage systems.

# Single Survey

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the comments above for detailed information.

Structural movement		Category 1 <span>1</span>	No immediate action or repair is needed.
Dampness, rot and infestation	1		
Chimney stacks		Category 2 <span>2</span>	Repairs or replacement requiring future attention, but estimates are still advised.
Roofing including roof space	1		
Rainwater fittings	1	Category 3 <span>3</span>	Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.
Main walls	1		
Windows, external doors and joinery	2		
External decorations	1		
Conservatories / porches			
Communal areas	1		
Garages and permanent outbuildings			
Outside areas and boundaries	1		
Ceilings	1		
Internal walls	1		
Floors including sub floors	1		
Internal joinery and kitchen fittings	1		
Chimney breasts and fireplaces			
Internal decorations	1		
Cellars			
Electricity	1		
Gas	1		
Water, plumbing and bathroom fittings	1		
Heating and hot water	1		
Drainage	1		

## Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

## Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

## 3. ACCESSIBILITY INFORMATION

### Guidance Notes on Accessibility Information

#### Three steps or fewer to a main entrance door of the property

In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

#### Unrestricted parking within 25 metres

For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coin-operated machines.

1. Which floor(s) is the living accommodation on?	Ground,First,Second
2. Are there three steps or fewer to a main entrance door of the property?	No
3. Is there a lift to the main entrance door of the property?	No
4. Are all door openings greater than 750mm?	No
5. Is there a toilet on the same level as the living room and kitchen?	Yes
6. Is there a toilet on the same level as a bedroom?	Yes
7. Are all rooms on the same level with no internal steps or stairs?	No
8. Is there unrestricted parking within 25 metres of an entrance door to the building?	Yes

## 4. VALUATION AND CONVEYANCER ISSUES

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated re-instatement cost for insurance purposes.

### Matters for a solicitor or licensed conveyancer

The property is situated in an area of past mining activity. A mining report should be obtained from the Coal Authority to provide information as to historic and future mining activity and whether the property has been the subject of any compensation claims and to confirm that the property is not adversely affected.

The Solicitor/Conveyancer must ensure that any prospective purchaser fully understands the nature, criteria and basis of a Home Report and in particular what a Home Report is and what it is not (an exhaustive Condition Report) This should be done before any prospective purchaser makes an offer for this property based on the content of this report. If the Solicitor or purchaser requires any clarification in relation to this they must contact the surveyor or familiarise themselves with the nature and criteria of this type of report.

Where defects or repairs have been identified within this report it is recommended that, prior to entering into any legally binding sale or purchase contract, further specialists or contractors advice and estimates should be obtained, to establish the implications, if any, on a potential offer to purchase or the sale price likely to be achieved for the property.

We understand that the property retains 2 allocated parking spaces in the courtyard area. This should be confirmed, along with any other repairing liabilities within the common Moore Place development.

There appears to be a shared access to the rear of the property. The conveyancer should obtain details. Our valuation assumes that the property is not adversely affected.

### Estimated re-instatement cost (£) for insurance purposes

£235,000.00. (Two Hundred and Thirty-Five Thousand pounds.)

### Valuation (£) and market comments

£125,000 (One Hundred and Twenty Five Thousand Pounds).

In our opinion the subjects would form suitable mortgage security by a lending institution.

## Legal Matters

Are there any apparent legal issues to be verified by the conveyancer?

Yes

If yes, please provide details:

The property is situated in an area of past mining activity. A mining report should be obtained from the Coal Authority to provide information as to historic and future mining activity and whether the property has been the subject of any compensation claims and to confirm that the property is not adversely affected.

The Solicitor/Conveyancer must ensure that any prospective purchaser fully understands the nature, criteria and basis of a Home Report and in particular what a Home Report is and what it is not (an exhaustive Condition Report). This should be done before any prospective purchaser makes an offer for this property based on the content of this report. If the Solicitor or purchaser requires any clarification in relation to this they must contact the surveyor or familiarise themselves with the nature and criteria of this type of report.

Where defects or repairs have been identified within this report it is recommended that, prior to entering into any legally binding sale or purchase contract, further specialists or contractors advice and estimates should be obtained, to establish the implications, if any, on a potential offer to purchase or the sale price likely to be achieved for the property.

We understand that the property retains 2 allocated parking spaces in the courtyard area. This should be confirmed,

## Location

Location details:

The property is situated within a mainly residential area with an average level of local amenities.

## Roads

Road description:

The road has been adopted (assumed).

## General Remarks

The property was found to be in a fairly good state of repair/decoration both internally and externally, consistent with age and construction type. Items noted should prove capable of remedy within the scope of ongoing routine maintenance/upgrading.

## Essential Repairs

None

## Mortgageability Remarks

The property is of timber frame construction. The lender should confirm that it is acceptable under policy.

## Valuation

Market value in present condition:		£ 125000
Market value after essential repairs:		£
Insurance reinstatement value:		£ 235000
Retention required?	No	Retention amount: £

## Note for sellers

- Please complete this form carefully. It is important that your answers are correct.
- The information in your answers will help ensure that the sale of your house goes smoothly. Please answer each question with as much detailed information as you can.
- If anything changes after you fill in this questionnaire but before the date of entry for the sale of your house, tell your solicitor or estate agent immediately.

## Information to be given to prospective buyer(s)

<b>1.</b>	<b>Length of ownership</b>
	How long have you owned the property? 18 YEARS.
<b>2.</b>	<b>Council tax</b>
	Which Council Tax band is your property in? (Please tick one) <input type="checkbox"/> A <input type="checkbox"/> B <input type="checkbox"/> C <input type="checkbox"/> D <input type="checkbox"/> E <input type="checkbox"/> F <input type="checkbox"/> G <input type="checkbox"/> H
<b>3.</b>	<b>Parking</b>
	<p>What are the arrangements for parking at your property? (Please tick all that apply)</p> <ul style="list-style-type: none"><li>• Garage <input type="checkbox"/></li><li>• Allocated parking space <input checked="" type="checkbox"/></li><li>• Driveway <input type="checkbox"/></li><li>• Shared parking <input type="checkbox"/></li><li>• On street <input type="checkbox"/></li><li>• Resident permit <input type="checkbox"/></li><li>• Metered parking <input type="checkbox"/></li><li>• Other (please specify):</li></ul>
<b>4.</b>	<b>Conservation area</b>
	<p>Is your property in a designated Conservation Area (that is an area of special architectural or historical interest, the character or appearance of which it is desirable to preserve or enhance)?</p> <p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Don't know</p>

# property questionnaire

<b>5.</b>	<b>Listed buildings</b>	
	Is your property a Listed Building, or contained within one (that is a building recognised and approved as being of special architectural or historical interest)?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
<b>6.</b>	<b>Alterations/additions/extensions</b>	
<b>a.</b>	(i) During your time in the property, have you carried out any structural alterations, additions or extensions (for example, provision of an extra bath/shower room, toilet, or bedroom)?  <u>If you have answered yes</u> , please describe below the changes which you have made:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	(ii) Did you obtain planning permission, building warrant, completion certificate and other consents for this work?  If you have answered yes, the relevant documents will be needed by the purchaser and you should give them to your solicitor as soon as possible for checking.  If you do not have the documents yourself, please note below who has these documents and your solicitor or estate agent will arrange to obtain them:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
<b>b.</b>	Have you had replacement windows, doors, patio doors or double glazing installed in your property?  <u>If you have answered yes</u> , please answer the three questions below:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	(i) Were the replacements the same shape and type as the ones you replaced?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	(ii) Did this work involve any changes to the window or door openings?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	(iii) Please describe the changes made to the windows doors, or patio doors (with approximate dates when the work was completed):   Please give any guarantees which you received for this work to your solicitor or estate agent.	

# property questionnaire

<b>7.</b>	<b>Central heating</b>	
<b>a.</b>	<p>Is there a central heating system in your property?</p> <p>(Note: a partial central heating system is one which does not heat all the main rooms of the property – the main living room, the bedroom(s), the hall and the bathroom).</p> <p><u>If you have answered yes or partial</u> – what kind of central heating is there?</p> <p>(Examples: gas-fired, solid fuel, electric storage heating, gas warm air).</p> <p><u>If you have answered yes</u>, please answer the three questions below:</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Partial
	(i) When was your central heating system or partial central heating system installed?	
	2008	
	<p>(ii) Do you have a maintenance contract for the central heating system?</p> <p>If you have answered yes, please give details of the company with which you have a maintenance contract:</p>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	(iii) When was your maintenance agreement last renewed? (Please provide the month and year).	
<b>8.</b>	<b>Energy Performance Certificate</b>	
	Does your property have an Energy Performance Certificate which is less than 10 years old?	<input type="checkbox"/> Yes <input type="checkbox"/> No
<b>9.</b>	<b>Issues that may have affected your property</b>	
<b>a.</b>	<p>Has there been any storm, flood, fire or other structural damage to your property while you have owned it?</p> <p><u>If you have answered yes</u>, is the damage the subject of any outstanding insurance claim?</p>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes <input type="checkbox"/> No
<b>b.</b>	<p>Are you aware of the existence of asbestos in your property?</p> <p><u>If you have answered yes</u>, please give details:</p>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
