Access from the driveway gives direct approach to the garage and from here there is access either side of the property, but particularly to the right hand side of the property there is quite a large amount of space suitable for the erection of a carport/garage subject to the necessary building regulations. At the rear and directly off the garage/utility there is a concrete hardstanding and this in turn leads onto a good sized lawn and patio area, mature trees, and a further hard landscaped area off the dining/play room. On the far side of the property there is a large timber lean-to/store, ideal for garden machinery and a timber security gate giving an additional access back to the front of the property. The rear garden is well enclosed with mature hedging and if so desired it could be reduced and would give a fantastic view over the surrounding countryside.
