PROPERTY DESCRIPTION

HOUSE FOX ESTATE AGENTS PRESENTS ... This stunning country-set 5 bed detached house was converted in 1991 and offers a wealth of space, wood panelling, exposed beams and even a bespoke kitchen made from 1 whole tree. The property is located at the end of country lane access and has remote electric gates to the front beside the double garage with remote roll up doors. A long driveway then snakes through the front grounds, past a large pond and leads to an integral double garage with parking. Entry to the house can be from the front or rear and both sides have large garden areas. The official front entrance has glass covered verandas to each side of a large portico with double doors entering into a grand entrance hall with an impressive wood staircase to the first floor and a large round-topped window overlooking the rear gardens. To the left is a good sized living room with a 6' wide open fire place and french doors opening onto the glass covered veranda area which in turn has a door leading into the conservatory to one end of the house. The kitchen and dining area are connected to each other and the bespoke solid oak kitchen was actually made from 1 whole tree and offers marble work surfaces and a large inset range-style cooker. From the kitchen there is a useful utility room which has washing machine and a stainless steel sink/drain. The rear door is located by the utility where also can be found a cloakroom with WC and shower, a door to the integral double garage, and stairs leading up to a very impressive 33' bedroom with a huge window to one end overlooking the countryside. Upstairs back in the main house there are 4 further bedrooms with one having a large walk-in cupboard and a generous en suite offering a suite of WC, wash basin and disabled-style walk-in bath. To the outside the grounds are mostly laid to lawn and there are various out-buildings including an ex-kennels building, the double garage by the main gate, a large timber shed housing the oil tank, a further timber shed housing the ride-on mower and a round timber store shed. Please note that heating is oil powered, the drainage is on septic tank and the solar panels are owned by the house.
