The jetty is within the property ownership and accessed over a public footpath at the bottom of the garden and steps which take you down to the jetty and lake shore.

Right of access to the lake is not prescriptive. The contract pertains to the location of the jetty itself which is in the title deeds of the property. It was added into the deeds when the previous owner purchased the property around twenty years ago and the current owner has owned the property since 2008. The right to have the jetty in the current location is contracted with the Lake District National Park Authorities. This is a yearly contract which our vendors have had with them for around fourteen years and costs circa £200 per annum. We understand the jetty was built within property permissions and environmental resting requirements.
