EXCELLENCE AS STANDARD

An inspiring place to call home

A Hayfield home is anything but ordinary. We use different suppliers, different materials, and different fittings to create a home that looks and feels original and is full of personality. It's what we call the Hayfield Difference.

Hayfield Gardens has been designed to blend seamlessly with its surroundings and offer a range of brand-new homes with an unrivalled specification and the gold standard of energy efficiency.

The curation of 60 two, three, four and five-bedroom homes will take pride of place in the charming Bedfordshire village of Toddington, and each detached, semi-detached and terraced home will be EPC A-rated and boast our premium specification, as standard.

ECO REDEFINED H

We apply an innovative and responsible approach to minimise our impact on the environment, for the benefit of our customers and the planet.

CARBON EMISSIONS

To have the best chance of avoiding a 2°C rise in global temperatures, the average global carbon footprint per year needs to drop to under 2 tonnes by 2050. We introduced our Zero Carbon Ready specification in 2021—four years in advance of the 2025 Future Homes Standard legislation.

The average EPC A-rated Hayfield home emits 0.1 tonnes of carbon per year, which is 97% less carbon emissions compared to a typical existing home and 89% less emissions than the average new build home.
