GENERAL

An exceptional country property only 5 minutes drive from the Cardigan Bay coastline.

The property is a converted stone range providing a deceptively spacious accommodation and is fully orientated to maximise the outlook towards the Bay. The property boasts numerous character features including custom made oak doors throughout, feature 'A' frames and beams to kitchen and open plan lounge, high quality bathrooms and good level of natural light.

To the north is a separate 1.5 acre paddock which benefits from its independent side access so as not to travel through the garden. The land has a gentle slope and is in good order being well fenced with mature hedgerows to boundaries.

To the rear of the house is a timber frame outbuilding currently used as a wood and tractor store and with useful side double garage which could be used as a potential stable in future.

To the side of the main house is a connecting stone outbuilding which we are advised now has planning permission to be converted as part of the main dwelling and offers potential for bedroom, study or play room, offering sufficient flexibility on the side of the dwelling.

N.B. - The property has recently been subject to extensive insulation works which has improved the energy efficiency and heat retention while minimising impact on the character of the dwelling.

A new efficient air source heating system has also been installed.
