2 Story building with commercial use on the ground floor and planning permission granted to convert the first floor to residential.

Originally 2 dwellings now combined on the ground floor to create a lock up shop with first floor storage/offices and toilets (But still divided) planning permission has been granted to retain the retail ground floor element with the addition of a kitchen and toilet with the first floor being combined to create a separate 2 bedroom apartment.

The first floor currently comprises on one side of the building stairs to the first floor from the rear of the building with open plan layout and kitchen and toilet off the landing. A solid wall separates this side from the other which comprises 2 rooms and a toilet.

Planning has been granted to combine the whole first floor to create a 2 bedroom apartment with open plan kitchen/Dining/ living Room and bathroom. 1 parking space to the rear.

Indicative plan below:

The ground floor about 745 Sq. ft. net internal area is currently vacant and predominately open plan with good window frontage, stock and storeroom to the rear and once installed a kitchen and toilet. It is available to let on a commercial lease under a user class of 'E' and formally a retail premises at £18,000 per annum.

See indicative plan below:

All in all an ideal opportunity to buy and occupy the whole, or let the whole, or occupy part and let the remainder.

Values: It is our opinion the retail element of the ground floor should let at circa £18,000 per annum, with subject to finish the first floor apartment should be worth circa £325,000 and would let at circa £1,200 PCM reflective of the current market conditions at the time of listing the premises to market.
