This map displays nearby coal mine entrances and their classifications.

Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Maps

Conservation Areas

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

Nearby Conservation Areas

-  Longdon Green
-  Wall
-  Lichfield City
-  Trent and Mersey Canal
-  Cannock Town Centre
-  Bridgtown North Street
-  Fradley Junction

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

Nearby Council Wards

-  Boney Hay & Central Ward
-  Chase Terrace Ward
-  Summerfield & All Saints Ward
-  Highfield Ward
-  Rawnsley Ward
-  Chasetown Ward
-  Longdon Ward
-  Heath Hayes East and Wimblebury Ward
-  Hammerwich with Wall Ward
-  Hednesford South Ward

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5		75.0+ dB	■
4		70.0-74.9 dB	■
3		65.0-69.9 dB	■
2		60.0-64.9 dB	■
1		55.0-59.9 dB	■

Flood Risk

Rivers & Seas - Flood Risk

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than **1 in 30 (3.3%)** in any one year.
- Medium Risk** - an area which has a chance of flooding of greater than **1 in 100 (1.0%)** in any one year.
- Low Risk** - an area which has a chance of flooding of greater than **1 in 1000 (0.1%)** in any one year.
- Very Low Risk** - an area in which the risk is below **1 in 1000 (0.1%)** in any one year.

Chance of flooding to the following depths at this property:

Flood Risk

Rivers & Seas - Climate Change

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.

Local Area Masts & Pylons

- Key:**
-  Power Pylons
 -  Communication Masts

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m³).

Local Area Road Noise

This data indicates the level of noise according to the strategic noise mapping of road sources within areas with a population of at least 100,000 people (agglomerations) and along major traffic routes. This indicates a 24 hour annual average noise level with separate weightings for the evening and night periods.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

- 75.0+ dB
- 70.0-74.9 dB
- 65.0-69.9 dB
- 60.0-64.9 dB
- 55.0-59.9 dB

Testimonial 1

Fantastic service over many months for the selling of my apartment. Above all expectations. Help and encouragement on many occasions. In particular Sarah Upton has been excellent. Thank you to all.

Testimonial 2

We have recently sold our house through Bill Tandy Burntwood, and they were also the agents for our ongoing purchase. Estate agents often receive some bad press and can be the unsung heroes of a sale/purchase transaction, but for us, Bill Tandy have been worth every penny and more. The team worked tirelessly to push this transaction through, going above and beyond at every opportunity. We were blown away with the service, and we cannot be more grateful.

Testimonial 3

We have recently sold our house through Bill Tandy, everyone at the Burntwood branch have been spot on with service, even going above and beyond until exchange and completion. Massive thank you to you all. Would highly recommend.

Testimonial 4

Sarah and the bill Tandy team have been absolutely fantastic throughout the process of selling our house. She was quick to respond to any issues and questions and kept us up to date regularly on the process. I have dealt with a fair few estate agents and sarah (and bill Tandy as a whole) are by far the best we have worked with. I would not hesitate in recommending them or using them again.
