# Maps

## Coal Mining

This map displays nearby coal mine entrances and their classifications.

### Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

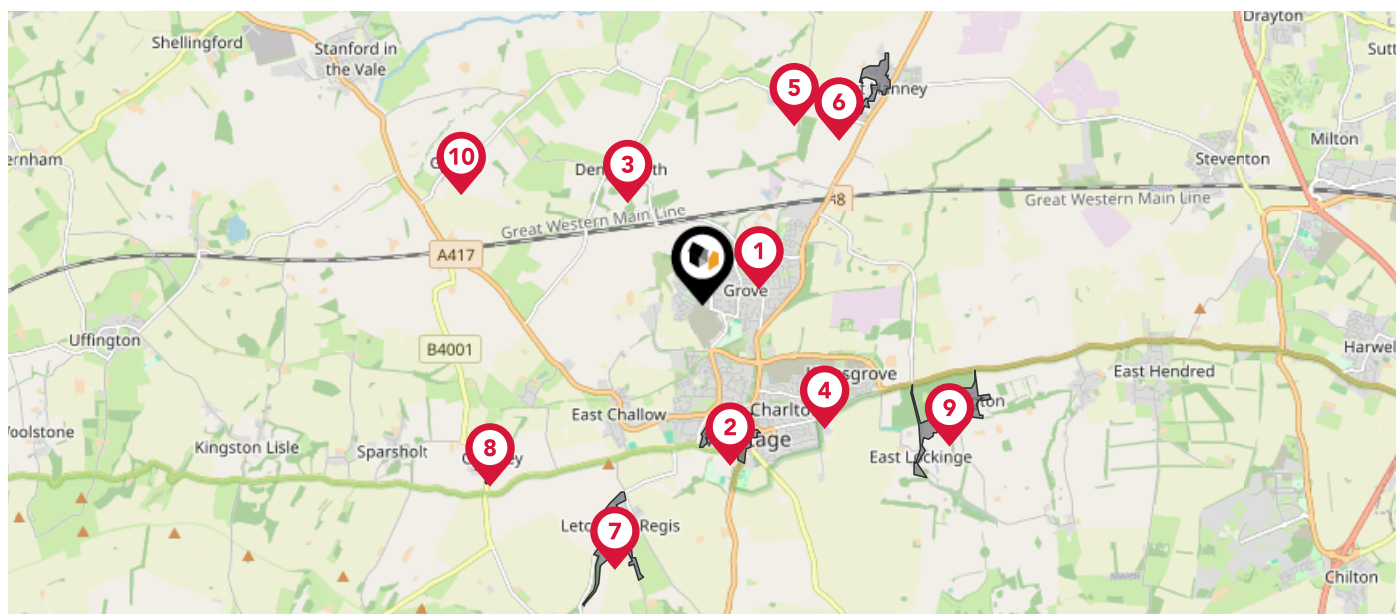

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

# Maps

## Conservation Areas

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

### Nearby Conservation Areas

# Flood Risk

## Rivers & Seas - Flood Risk

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

**Risk Rating: Very low**

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- **High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- **Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- **Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.25%) in any one year.
- **Very Low Risk** - an area in which the risk is below 1 in 1000 (0.25%) in any one year.

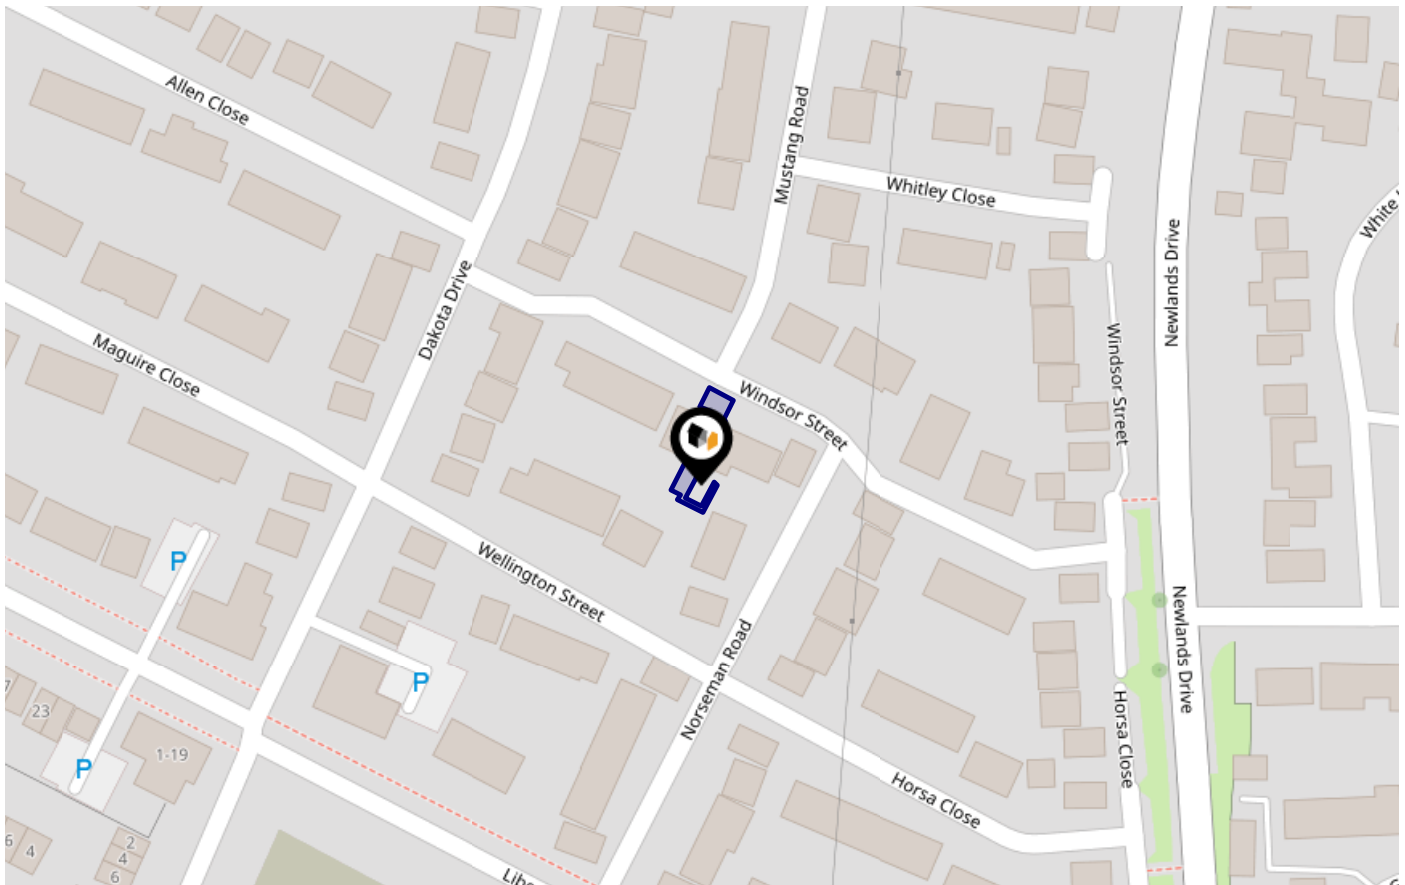

Chance of flooding to the following depths at this property:

# Flood Risk

## Rivers & Seas - Climate Change

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

**Risk Rating: Very low**

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- **High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- **Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- **Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- **Very Low Risk** - an area in which the risk is below 1 in 1000 (0.1%) in any one year.

## Masts & Pylons

**Key:**

-  Power Pylons
-  Communication Masts

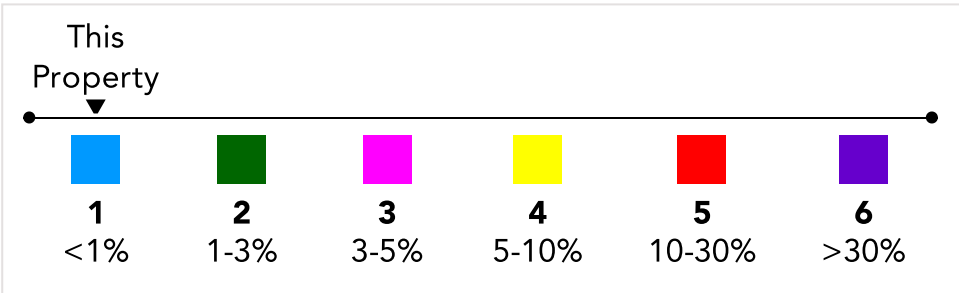

# Environment

## Radon Gas

### What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m<sup>3</sup>).

# Local Area

## Road Noise

This data indicates the level of noise according to the strategic noise mapping of road sources within areas with a population of at least 100,000 people (agglomerations) and along major traffic routes. This indicates a 24 hour annual average noise level with separate weightings for the evening and night periods.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

- 75.0+ dB
- 70.0-74.9 dB
- 65.0-69.9 dB
- 60.0-64.9 dB
- 55.0-59.9 dB

### Waymark Property

---

We are Estate Agents, Chartered Surveyors and Commercial Property Consultants with offices in Faringdon, Wantage and Didcot.

Our Residential Sales and Lettings team specialise in the South West Oxfordshire, North Wiltshire and South Cotswold regions including the towns of Wantage, Faringdon, Didcot, Abingdon, Highworth, Lechlade and the surrounding villages.

### Testimonial 1

Waymark property provided us with an excellent service and were very accommodating for a second viewing at the house we have just purchased. Throughout the whole process, all Waymark staff helped us genuinely and courteously with every question we had. This made the whole process so much less stressful and even managed to get us in the house just before Christmas, bonus!

### Testimonial 2

We would like to say that right from the initial valuation the team at Waymark remained professional and friendly. They keep in constant contact giving instant feedback after viewings which were all accompanied and arranged without any inconvenience to us. Their persistence in chasing the solicitors in the chain ensured we were confident that everything was being done to move to exchange as quickly as possible. Thank you Waymark!

### Testimonial 3

We would like to thank all at Waymark for your prompt and professional service regarding the sale of our property in Uffington. We would have no reservation in recommending your services.
