The Property

Acorns, a newly constructed home by local builders Healthy Developments, has been beautifully crafted to their exacting standards and positioned to take full advantage of its countryside setting, with far-reaching views over surrounding farmland.

The home has been built with health and families at the heart. Built using many natural and low emission materials, coupled with a whole house fresh air system, plastic free paints and even plastered ceilings that can decompose harmful VOCs, this a home that you provides you with a sanctuary to live in.

As you walk in to the entranceway, you are met with a vaulted ceiling that stretches the full height of the building, giving you a sense of space and quality throughout. The kitchen is a hand built solid wood kitchen that has been finished with Little Greene paint, with an oversized island providing the perfect spot for a morning coffee looking out over the meadow.

Upstairs, the striking mezzanine benefits from open views of the countryside, which could be used for some casual seating or a study area. The bedrooms are large and well proportioned, with the master suite having its own walk-in wardrobe. The bathroom suites are finished to a high standard, with both first floor bathrooms having their own separate bath and shower.
