GENERAL

An individually designed, detached residence constructed by a reputable local builder, under architect supervision. Warm insulated timber frame construction with other elevations in facing brickwork under a tiled roof and benefits from grey coloured uPVC glazed windows and doors. solar panels on the roof to improve efficiency. Since acquiring the property, the current vendors have invested significantly, with works which include new high quality kitchen, bathroom suites, tiled flooring, the conversion of the loft to provide two large bedrooms and central landing/second lounge and small details such as Quartz window sills in the kitchen and utility and sensor lights that do not automatically turn on the extractor fans in the en-suites. Each room benefits from its own individual room thermostats and underfloor heating to ground floor. The property certainly offers a versatile living space which would work as a perfect family home or could indeed be utilised for multi-generational living. An internal inspection of the property is advised to appreciate the quality of workmanship throughout.
