HOMES

Stonevale Homes are proud to offer you a unique opportunity to have the perfect property in the ideal location. We create beautiful, exclusive, classic but contemporary, sustainable new homes in Dorset, Somerset and Wiltshire.

Stonevale Homes was founded in 2018 when an opportunity was recognised for a property company that built beautiful, bespoke homes with sustainability as a core value.

Gary and Andrew have many years of experience in the residential property sector and together have a wealth of expertise in planning and construction.

From the very beginning Stonevale Homes has stood out from the crowd, both in the site development and creation of bespoke properties, whilst complimenting surroundings and landscape.

Stonevale Homes encourage involvement with clients to design and develop from the early stages, creating a truly bespoke new home; one that is tailored to personal taste, lifestyle and needs. Once a plot has been chosen, we will work together to determine the style of the property from concept to completion. Combining our knowledge and the customers dreams for exterior and interior design to layouts, finishes, fixtures and fittings, together we will create your perfect new home.

THE VISION

Situated in the historic and much sought-after village of Maiden Bradley The Old Timber Yard was designed after careful study of the distinctive heritage, layout and architecture of Maiden Bradley. The homes are arranged around 'courtyards' with high quality features and materials including block paviour surfaces, stone boundary walls and soft landscaping.

Homes are designed for contemporary lifestyles but represent the best of both worlds - open plan living and the facilities needed in a modern home but with an architectural style which references the best of Maiden Bradley's historic buildings. Roofs are clay tile with deep overhanging eaves, gables and porches and local materials include stone with brick window surround detailing. Each plot has off street parking and garaging and generous gardens.

THE HOUSES

Each property benefits from air source heat pumps, PV panels and an electric car charging point. The kitchens and bathrooms will be to an exceptionally high standard with Limestone or engineered oak to floors and large format ceramic tiles to the walls and carpets on stairs and bedrooms.
