### What surface water is

Surface water flooding is sometimes known as flash flooding. It happens when rainwater cannot drain away through normal drainage systems.

### What makes rivers and sea flooding more likely

Low-lying areas that are close to rivers or the sea are more likely to flood when water levels rise.

This information takes into account any flood defences.

► [Why flood defences cannot completely prevent flooding](#)

## Other flood risks

[More about groundwater and reservoirs \(/ground-water\)](#)

### Groundwater

Flooding from groundwater is unlikely in this area.

### Reservoirs

Flooding from reservoirs is unlikely in this area.
