LAND, VINEYARD, CARAVANS, STABLES & YARD

The property sits in just under 8 acres thereabouts in a rectangular plot around the property.

Around the 2 main buildings you will find well maintained gardens with several private seating areas.

To the east of the buildings you will find a pond next to the driveway along with established vines that form part of the Jabajak business.

To the side of the vineyard is an extended maintenance area which currently houses 2 static caravans although we are advised that there is planning permission in place for 3 static caravans at this point.

In addition is a 25' polytunnel with continuing gravelled driveway leading up to a stable block currently used for storage purposes but provides 2 large stables, inside tack room with side log store area. At this point the property benefits mains water and electricity connections.

Within the 8 acres we believe that there is great potential for further diversification to include potential for glamping and additional touring caravan site subject to the necessary consents.
